SHE LEFT THE LIFE

Alana had been sexually exploited for nearly six years before she got out of her dangerous situation.

She had been forced to perform services out of a hotel, learned she was pregnant, and knew her abusers were looking for her. Alana needed a safe place to go and get out of the life, so she called our Rescue hotline.

Our Exit Strategists quickly assessed her situation and worked to find her placement in a secure and safe home.

Throughout the process, Alana expressed her fear and worry coming out of her abuse, and our Exit Strategists came alongside her in prayer as she bravely took steps towards healing. While on her way to placement, she shared:

“You have advocated for me more than anyone... Thank you so much. God is good!”
